

WG-1515

BY WESTERN LIGHTING

EXTRA HEAVY DUTY WIRE GUARD

SPECIFICATIONS

- Chrome-plated .156" wire, welded to form a sturdy protective cage around exit fixtures or emergency lights.
- Guard fastens securely to wall. Shock of basketballs, etc. hitting the guard is transmitted to the wall, not to the fixture.
- Guard can be mounted to swing open from the right, left, top or bottom.
- Wall mounting angles fabricated of 20 gauge brushed stainless steel (fasteners by others).
- Cage fastens to wall angles with 8/32 SS machine screws for easy servicing of the fixture.
